868ZK

Choose Quality Hardware

by

Schwepper

**The 868ZK Mortise Lock
was designed for
discriminating
motor yacht, sailboat
and trawler owners
who are interested in
upgrading
their investment
with high end components.**

Manufactured in Germany, the 868ZK's mirror polished chrome exterior is the most popular finish. Polished brass, matte chrome and 24K gold plating are also available upon request. Made of brass with stainless steel springs, the 868ZK is completely non-ferrous; it will not rust or corrode. Available from stock keyed alike in sets of 2 for pilot doors - additional cylinders can be keyed alike upon request. The 868ZK comes standard with knob inside keyed cylinder outside; it is also available with keyed cylinder both sides. The 868ZK is complemented by the 868F for latch only doors and 868WC for privacy doors (thumbturn inside, emergency access outside).

Authorized Distributor
near you.**

The 868ZK is an excellent replacement for a popular manufacturer's OEM model. Some additional routing is required...

...The end result speaks for itself.
